

Diagnostic\_Report\_Metabolic.pdf

Category: Diagnostic Report - 2026-09-23 | Patient ID: nikitha\_venu  
Official Document Date: 2026-09-23 | Status: Verified Diagnostic Record

CLINICAL FINDINGS & BIOMARKER SUMMARY

- Comprehensive sports medicine and clinical diagnostic evaluation completed.
- All testing conducted under standardized laboratory protocol.
- Key biomarkers reviewed: Complete metabolic panel, hormone profiles, and functional metrics.
- Primary recommendation: Maintain prescribed macronutrient balance and structured training regimen.
- Refer to subsequent pages for detailed diagnostic assays and historical comparative trends.

| PARAMETER             | RESULT      | REFERENCE RANGE    | STATUS  |
|-----------------------|-------------|--------------------|---------|
| Serum Ferritin        | 42.5 ng/mL  | 15.0 - 150.0 ng/mL | Optimal |
| TSH (Thyroid)         | 2.14 uIU/mL | 0.40 - 4.50 uIU/mL | Normal  |
| HbA1c                 | 5.4%        | 4.0 - 5.6%         | Optimal |
| Fasting Blood Glucose | 88 mg/dL    | 70 - 99 mg/dL      | Normal  |
| Vitamin D3 (25-OH)    | 48 ng/mL    | 30 - 100 ng/mL     | Optimal |
| Total Cholesterol     | 178 mg/dL   | < 200 mg/dL        | Normal  |

## CONTINUED CLINICAL NOTES & VERIFICATION
